

# **FISH PROTEIN EXTRACT**

## **Sucheta Sahoo**

Our fish protein extracts and salmon oil are produced to the highest possible standard. Sourced from Norway and using sustainable raw material, the fish protein extract can be used as pet supplements to improve skin condition and maintain a glossy coat. These products are available in smaller 250ml and 500ml bottles and in larger 20-25kg containers.

Fish Protein extracts and oils are a popular choice for fishing bait recipes and are known to work well as an attractant. The fish extract can also be used in special pet diets that have been set by your vet. What ever the reason for your use of fish protein extracts, we have plenty of choice available, including hydrolysed and fresh extracts.
